

POLLCAT

With a robust steel catamaran hull, and a built-in oil mop system, the POLLCAT is ideally suited for rapid response and recovery in the event of an oil spill.

The POLLCAT has a clear rear deck, recovered oil storage, and a hydraulic crane, making it an extremely versatile tool. The oil mop system can be complemented and boosted by the use of additional skimmers such as the TERMINATOR operated from the deck.

In addition to the above mentioned features the POLLCAT also offers a large cruising range, and a reasonable pumping capacity of recovered oil.

The twin engines mean a POLLCAT is an extremely versatile vessel and ensures it can remain on station and in the oiled area for as long as possible.

POLLCRAFT

The POLLCRAFT is a stable 10 or 12m mono-hull multipurpose platform which offers good all-round facilities, a large clear rear deck area, and a hydraulic knuckle crane as standard.

It is ideal for a wide range of cleanup duties in ports, terminals or harbours, but can also be used in more challenging roles if required. The vessel has a recovered oil capacity of 10 m³, and a pumping capacity of 30 m³/hr increasing the vessel's flexibility.

POLLKITTEN

As the smallest vessel in the range, the POLLKITTEN is highly flexible with a shallow draft and is ideally suited to sheltered terminal and harbour applications.

With a built-in oil mop system, the POLLKITTEN is able to rapidly respond and recover any oil pollution. This vessel has an oil recovery rate of up to 20 m³ per hour, and a pumping rate of up to 30 m³ per hour.

For convenience, a knuckle crane can be mounted, and the vessel has inbuilt storage for recovered oil.

KAZI-CAT

Kazi-Cat is the newest version of DESMI's versatile workboats where focus point has been Container Modules giving Multi-Purpose Functions just by changing containers. The Kazi-Cat can be used as state-of-the-art Oil Skimming Boat and even with a new recovered oil tank concept where the recovered oil tanks are replaced within 15 minutes, the Kazi-Cat can be in operation again.

Besides this task the Kazi-Cat can be used as transport of up to 12 people in special container, as transport of up to 4 injured people in special container and much much more.
